THE COMPANY

KAIRO TECHNOLOGIES

Building technology beyond boundaries. Kairo makes software, AI-powered experiences and computing infrastructure that put powerful technology in more hands.

PRODUCT 01

KAIRO CLOUD OS

A cloud computer in your browser

A browser-native cloud operating system with windows, a terminal, a code editor and persistent workspaces. Heavy compute runs in the cloud, not on your machine.

thekairo.dev

↗

PRODUCT 02

KAIRO ORBIT

Your Mac. Anywhere.

Use your Mac from iPhone or Android: open apps, manage files, run code and commands, and hand tasks to an AI operator, from anywhere.

PRODUCT 03

PAIR

Better matches. Happier companions.

Pet matchmaking and compatibility for dogs, cats, rabbits, birds and small pets, with pet profiles, preference-based matching and local discovery.
